

Introduction to the week

Fabrice.Kordon@lip6.fr

What you already know

2

A bit of Objective-C

-  How to write an Application
-  How to handle memory in Objective-C
-  A better practice with StoryBoard
-  Deploy on a device
-  Manage images & customize buttons

You already created more complex Applications

What's next this week

Swift

- Remind this is not a «programming course»
 - ▶ Mostly a syntactic description

This is a first look

- Practice will help
- You will need to read

(Re-)implement some «real» Apps
